RED SAHARA

Experience the moments of music and magic that shape the sounds and styles of Red Sahara, the New York-based genre-bending music collective directed and led by performer-songwriters **Sabrina Clery** and **Vita Tanga**.

Clery adds her own rhythmic and dynamic creative input to the long traditions of the great soul vocalist. From Canada to Brooklyn with St. Lucian roots, she's also a marketing specialist with a master's degree in music business from New York University, an active vocal coach, and mom to Kaya Sky.

Tanga's guitar specializes in sounds and music from around the world. From Radio City Music Hall to the Louvre as a touring guitarist and movie score composer, this explorer from France has performed and recorded on four continents and in more than 35 states.

From a duo to a full 22-musician collective, Red Sahara's treatment is always unique, ardent, and innovative. They invite you to live the mirage.
